Procedure for pre-certification:

- Choose a mentor (board member).
- Prepare your CV
- Prepare your cases anonymously (no names in the presentation)
- Send a copy of the presentation to your mentor: this will be sent to the Committee in an anonymous way and then first judged
- If the cases pass this first step, you'll be officially invited to present to the Committee, together with your mentor.

Tips for certification:

- Choose a good DT or DDS (change if necessary).
- Use a simple case for your show case: it will lead to less discussions!
- USE YOUR MENTOR FOR ANY HELP!
